Sub: Monitoring of Online Mutation in Tahasils

Madam/ Sir,

In inviting a reference to the subject cited above, I am desired to say that mutation case disposal is the most important aspect of revenue administration. To bring it closer to people along with to make revenue administration more transparent, web based online Mutation was initiated as an ambitious initiative by the Government. For this the high speed 2 mbps MPLS internet connectivity was the key aspect for speedy disposal of mutation cases.

In this connection, I am also to say that BSNL was instructed to provide 2 mbps MPLS internet connectivity to 100 nos. of Tahasils in the first phase out of which BSNL has given MPLS connectivity in 92 Nos. of Tahasils till date. The list of such Tahasils is enclosed. In the coming month, i.e., by the end of December, 2017, it is expected that all the Tahasils of the State will have 2 mbps MPLS connectivity for Online Mutation..

You are, therefore, requested to instruct DIO, NIC to immediately install the LRMS (Land Records Management System) software in the concerned Tahasils for starting of Online Mutation. Further, you are requested to monitor the implementation of the online mutation process on weekly basis. ADMs, Sub-Collectors may be advised to continuously monitor the smooth implementation of the program.

In case of any difficulty, please contact the following officials.
